

# DH-TPC-BF5421-T

# Thermal Network Bullet Camera

- $\cdot$  400  $\times$  300 uncooled VOx thermal sensor technology
- · Athermalized lens (thermal), focus-free
- · Support body temperature measurement
- · Measurement Accuracy: ±0.3°C, with blackbody
- $\cdot$  Active deterrence with white light & siren
- · Various lens optional (7.5/13 mm)
- · 2/2 alarm in/out
- · Micro SD memory, IP67, PoE,ePoE

#### **System Overview**

Featuring a fixed lens bullet camera, this series provides an all-in-one solution that is especially beneficial for body temperature measurement.

### Functions

#### **Uncooled VOx Technology**

Dahua thermal cameras use uncooled VOx sensor technology. Their small size and better performance make them a cost-effective solution for thermal security.

#### **High Sensitivity**

High thermal sensitivity (<40 mK) allows cameras to capture more image details and temperature difference information.

#### **Protection**

The camera allows for wide input voltage tolerance, suitable for the most unstable conditions for outdoor applications. Its 6KV lightning rating provides effective protection for both the camera and its structure against lightning.

#### **Body Temperature Measurement**

Dahua thermal cameras characterized by non-contact, multi-objective, rapid, and no risk to temperature testers, etc. It can be conveniently deployed in public places with dense personnel, and can be used for efficient and safe preliminary screening of temperature anomalies.
